TRIO Student Support Services (SSS) is a federally funded program designed to provide a variety of free services to help students complete an Associate’s degree. These students are in need of academic support and meet at least one, if not more, of the following criteria: 1) low income, 2) first generation, and/or 3) have a documented disability to qualify for the SSS program. SSS provides ongoing support throughout a student’s college career by providing opportunities for students to grow personally, socially and academically.

Mission
Student Support Services seeks to support disadvantaged students who have potential to meet the challenges of higher education by strengthening and developing their academic and self-management skills. Its focus is to insure that participants in the program have a realistic chance to persist in school and graduate from Dixie State University with an Associates degree. To accomplish these objectives Student Support Services provides services to enhance students' academic success, personal skills, and social skills. Providing services in these areas corresponds to the University’s mission to foster lifelong learning. To implement the program's aims as outlined in its mission statement, the Dixie State University Student Support Services program focuses on five major goals:

• Recruit eligible students who meet federal low income, disability, and/or first generation guidelines.
• Increase the retention of disadvantaged students in the University.
• Increase the academic success of eligible students by increasing their GPA.
• Increase the number and percent of disadvantaged students who graduate from the University.
• Increase the number and percent of disadvantaged students who pursue graduate or professional schooling.

Vision
The Student Support Services program will teach student participants' self-direction, resourcefulness and resiliency through one-on-one advising focused on academic skills development and personal enrichment. Our student participants will become (skilled) successful students and college graduates (prepared to become self-actualizing), professionals, and global citizens who lead through best practices and lifelong learning.

What is Drop-in Tutoring?
Drop-In Tutoring is available at no cost to all registered Dixie State University students who are seeking assistance in select general education courses, including many Math and Science courses. Available subjects vary by student demand and tutor availability. For a detailed schedule, stop by the Tutoring Center or view it here. Just locate the subject in which you are interested, find the times tutoring is scheduled, then choose the time that is best for you! The Tutoring Center is happy to meet as many individual requests as possible, so students are encouraged to let the Center know if you have tutoring needs that don’t appear on the schedule. We make every effort to accommodate as many students in as many disciplines as possible. Call or visit the Director (Rowena Thiess) or any staff tutor.

Why is Drop-in Tutoring useful?
Drop-in tutoring allows students the flexibility to come in at their convenience during posted hours without the necessity of setting and keeping appointments. It provides an opportunity for students to work on assignments independently while having the opportunity to get tutor assistance when needed. It also encourages the formation of study groups because students will often make contact with other students in the same subject area.

**Mission**  
Our services are free to DSU students, and our mission is to help you become a better writer by approaching your assignments as a process of invention, writing, and revision. You can walk into the Writing Center and begin working with a tutor if s/he is not assisting another student at that moment, make an appointment to return at another time or call (435) 652-7629 to make an appointment. Please bring to the Writing Center a description of the writing project and a draft of the paper you wrote to meet the requirements of the project.

The Writing Center is staffed by peer tutors who offer suggestions, instruction, and tips to help you improve your individual skills. Please keep in mind that the Writing Center is not a proofreading service. We focus on helping you become a better writer rather than helping you correct mistakes in an essay. Tutors give basic suggestions for improvement and teach you to review your own papers. We will do our best to help you improve your writing skills, but responsibility for generating an error-free paper lies solely with you.
