I. Scope

- 1.1 Recognizing the centrality of teaching excellence to the academic mission of the University, Dixie State University considers its faculty to be one of its greatest resources. One of the goals of the University is to encourage and support faculty professional development endeavors in order to promote academic excellence and rigor and to enhance individual teaching performance.
 - 1.1.1 DSU supports a comprehensive Faculty Professional Development program intended to offer support and assistance to faculty in fulfilling the University's mission and ensuring quality programs. Evidence of sufficient and appropriate professional development is required to achieve post-probationary status and promotion through rank advancement.
 - 1.1.2 A faculty member is awarded professional development funding based on peer review by the Faculty Professional Development Committee (PDC), administrative review of a specific proposal, and available funding.
 - 1.1.3 Funds are available to all full-time, non-term appointed faculty. A faculty member on disciplinary probation is ineligible to receive professional development funding in any form. Funds are issued to individual members of the faculty, not allotted to departments, divisions, or schools.
- 1.2 Continuing education (CE) is comprised of educational experiences or activities for members of various professional fields that consist of updated and/or specialized information or training, usually not offered for academic credit. Full-time faculty members who are required to maintain licensure or

certification in a specific profession are eligible to request continuing education funding through deans and/or departments that may have allocations or other funding to support Continuing Education for specific faculty positions. Faculty Professional Development funds may not be used to support CE.

- 1.3 All travel required or funded through the Faculty Professional Development Program must conform to 6-4 General Travel and all other applicable policies and procedures.
- 1.4 Faculty members who receive professional development funds but do not fulfill the specified post-award reporting requirement(s) will be ineligible to apply for any Faculty Professional Development Program funding or opportunities for a period of three (3) years after the original award.
- 1.5 The award of professional development funds to an individual faculty member does not infer that the individual will be retained or granted tenure, continuing status, non-probationary status, or promotion through rank advancement. Nothing in this policy restricts the right of the University to implement termination provisions found in 371 Faculty Termination and/or 641 Retention, Promotion and Tenure Policy.

II. Funding

- 2.1 Professional Development Grants are largely dependent on funding from the Faculty Professional Development budget.
- 2.2 Other professional development opportunities are not funded from the Faculty Professional Development budget. However, if insufficient Professional Development Grants are requested resulting in surplus Professional Development Grant funds at the end of a specific budget year, those funds may also be used for the following, which otherwise must be funded from other sources:
 - 2.2.1 Sabbatical Leave
 - 2.2.1.1 Sabbatical Leave is dependent on the availability of sufficient funding, finding suitable replacements, and other factors.
 - 2.2.2 Educational Stipends
 - 2.2.2.1 Educational Stipends are dependent on institutional need, available funding, and other factors.
 - 2.2.2.2 Educational Stipends are not awarded before March 15 for the following academic year.

2.2.3 Educational Leave

2.2.3.1 Educational Leave is dependent on institutional need, available funding, and other factors.

III. Faculty Professional Development Committee

3.1 Professional development requests, proposals, and applications are reviewed by the Faculty Professional Development Committee, which is comprised of seven (7) voting members:

3.1.1 The Committee chair is chosen jointly by the Faculty Senate President and the Vice President of Academic Services. The chair is non-voting except in circumstances of recusal.

3.1.2 Seven (7) full-time, non-term appointment representative faculty members.

3.1.3 The Executive Director of Human Resources or designee serves as an ex officio member.

3.2 If a member of the Committee requests any form of professional development funding during the term of committee service, that person will remove him/herself from voting on that category of funding (Professional Development Grant, Sabbatical Leave, Educational Stipend, or Educational Leave) for that review cycle, but may participate in discussion. In cases of such recusal, the committee chair will be eligible to vote.

3.3 Review and Approval Process

3.3.1 The Committee reviews all professional development requests, proposals, and applications, and prioritizes them based on established criteria and available funding.

3.3.1.1 Requests, proposals, and applications require the approval of the faculty member's department chair and dean before submission.

3.3.1.2 Requests, applications, and proposals are submitted to the chair of the Committee.

3.3.1.3 Incomplete or insufficient requests, applications, and proposals, and those received after a published deadline will not be reviewed until the next deadline for that category of professional development.

- 3.3.1.4 The Committee strives to make recommendations for funding distribution that are fair and equitable to all faculty and which give priority activities with the greatest potential for positive impact on students as well as ability to fulfill institutional and other collective goals.
 - 3.3.1.4.1 A faculty member is not required to disclose a deficiency identified through evaluation in a funding application. The Committee will make every effort to respect the confidentiality of any faculty member whose application includes such a disclosure, but confidentiality cannot be guaranteed. A faculty member with a concern should consult with the appropriate dean.
- 3.3.1.5 After review, the Committee makes a recommendation to the Vice President of Academic Services about which applications should be funded and in what amount.
- 3.3.1.6 The Vice President of Academic Services approves or disapproves professional development awards and informs the faculty member, the faculty member's dean, and Committee chair of the amount funded.
 - 3.3.1.6.1 Sabbatical Leave and Educational Leave require additional approvals from the President of the University and the Board of Trustees prior to being awarded.

3.4 Reporting

- 3.4.1 The Vice President of Academic Services will provide a written report to the Committee chair of the professional development funds from all sources actually distributed to faculty as well as funds pending reimbursement prior to the December and March reviews and at the end of the fiscal year.
 - 3.4.2 Annually, the Committee will provide a general report to the faculty on professional development requests received and approved.
- 3.5 The Committee will hold workshops and training as needed to inform faculty of the process and procedures for Faculty Professional Development Program opportunities.
